3. Okehampton Battle

To discuss the proposed new format, See copy of email below and appendix of sample results at the end of this agenda

Hello Margaret

We would like the above to follow a similar format to that which we have enjoyed with Launceston C C for the past 5 years.

We call it It's a Knockout.

Basically the two clubs participating members directly submit two images not seen before by club members, as DPI,s only bearing a title We may, as we did last night balance up the entry as we are at present very small in numbers by possibly three from Okehampton. Images are sent direct to the organiser.

These are then randomised ,listed and voted on. The organiser does not vote and you cannot vote for your own images, with the aim of reducing the list to about half. These are then are then voted on again to a short list of about 10 images which are voted on again to produce a final list of 4/5 . These are then ranked by vote from first downwards producing the final result.

It sounds much more complicated than it really is .

Last nights meeting on this format was greatly enjoyed by all and a results sheet showing who scored what has been circulated.

For your info I will forward it.

Would you please put this proposal to your members.

regards Derek
